

PURE RESULTS

HIGH-VALUE POTASH,
GUARANTEED AT 62% K₂O

UP TO
60%
OF YIELD IS DEPENDENT
ON CROP NUTRITION.

Some say that's a lot. We say, "why not more?" That's why at The Mosaic Company, our singular focus is furthering crop nutrition knowledge and practices. Through performance products like Pegasus[®], cutting-edge agronomics, research, and educational tools & resources, we know we can make the ground beneath us work harder than has ever been thought possible. Join us as we continue to explore and advance crop nutrition together, all in the name of smarter products, smarter practices, and smarter business.

Pegasus[®]

PURE POTASH FORMULATED FOR PURE RESULTS

Mosaic[®]

PURE POTASH

→ TWO UNIQUE PRODUCT OPTIONS:

- Pegasus® Fine and Granular potash fertilizer can be applied wet or dry
- Pegasus Fine is a good choice as a suspended fertilizer across a variety of crops and soil conditions
- Pegasus Granular is ideal for dry applications, including bulk blending with other nutrients

→ SEE THE DIFFERENCE:

- White color makes it easy to see when applied dry, for a consistent application
- Both grades provide lower insolubles and impurities

→ MORE EFFICIENT:

- Pegasus fertilizer has 3.3% more potassium, equal to 40 additional pounds of K_2O per ton, allowing for more efficient transportation, application and storage
- Eco-friendly production uses only recycled water and energy-efficient cooling ponds
